Serial No. 09/800,448 Art Unit 1644

## DETAILED ACTION

- 1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:
- I. Claims 1-11, drawn to a method of developing dendritic Langerhans type cells comprising culturing PBMC in a medium containing platelets, classified in Class 435, subclasses 377 and 385.
- II. Claims 1-12, drawn to a method of developing dendritic Langerhans type cells comprising culturing PBMC in a medium containing platelets while specifically omitting GM-CSF, classified in Class 435, subclasses 377 and 383.

The inventions are distinct, each from the other because:

- 2. Inventions I-II are different methods. Note that it is well-established that the maturation of dendritic cells *in vitro* requires GM-CSF. Thus a method that specifically omits GM-CSF would be patentably distinct from a method that would include the cytokine.
- 3. Because these inventions are distinct for the reasons given above and Groups I-II have acquired a separate status in the art as shown by their different classification and/or the searches are not co-extensive and because the Groups encompass divergent subject matter, restriction for examination purposes as indicated is proper.
- 4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
- 6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gerald Ewoldt whose telephone number is (703) 308-9805. The examiner can normally be reached Monday through Thursday from 7:30 am to

Serial No. 09/800,448 Art Unit 1644

5:30 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (703) 308-3973. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center 1600 receptionist whose telephone number is (703) 308-0196.

Papers related to this application may be submitted to Technology Center 1600 by facsimile transmission. Papers should be faxed to Technology Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CM1 Fax Center telephone number is (703) 305-3014.
